

Love to Learn

Due in 2nd October

This term's Topic 'Me and My Place' we are beginning to learn about ourselves, our bodies and our feelings. We would like you to have some fun with your senses. Choose 2 (or more if you like) from the list below:

1. What can you hear inside and outside of your house? Draw them or take photos. Then see if you can write a word or a sentence about what you can hear.
2. Choose three colours. Tell me one thing that was each of those colours. You can draw these, take a photo or write 3 sentences.
3. Play a game with the people in your house: Ask a grownup to choose 5 things from your kitchen that have a strong smell. Take a good look at what has been chosen. Close or cover your eyes. Use your nose sniff and smell each one in turn and see if you can guess what they are. Did you guess it right? Take a photo or draw a picture of what 5 things you were trying to smell. Did you like the smell?
4. Play the game again with the people in your house but this time use your mouth! Ask a grownup to choose 5 things from your kitchen that have different tastes. Take a good look at what has been chosen. Close or cover your eyes. Taste each one in turn and see if you can guess what they are. Put each item next to the thumbs (see attached sheet) and take a photo or stick in your book.
5. Can you find things to match these words? Cut out the labels (see attached sheet) and use your fingers to find things that match the label. Put the label next to it and take a photo or stick in your book.

We hope you enjoy exploring your senses with your families!
