

Love to Learn Term 5

This term we are studying a science unit about plants. Please pick one of the Love to Learn activities below and bring into school.

Due Date: 21st May 2026

- Grow your own plant and take photos/make a diary of its growth.
- Create a diagram/model showing the parts of a plant.
- Write an information guide about how to look after a plant.
- Conduct an experiment to do with plants and create a poster of the results.
- Create observational drawings/photograph plants.
- Create a stop-motion animation of the growth of a plant.
