

Term 1 Love to Learn

Due 23/10/26

This term Year 4 are encouraged to delve deeper into our topic of Incredible Earth by exploring one of the following!

1. Can you make a model volcano? Try and see how many features you can label. Can you make it erupt like a real volcano?
2. Make a poster explaining earthquake safety. What key tips would you tell others? Are there different tips for being inside versus outside?
3. Go for a coastal walk with your adults, what different types of rock can you see? Can you find any fossils? Make an information text or poster to describe what you have found!
4. Can you make a presentation to explain to and educate your classmates how to look after our planet.

Good luck, we can't wait to see what you can do!
